

At SWARCO FUTURIT, we are proud to be the world's leading manufacturer of LED traffic signal heads and innovative variable message signs. Our products stand for the highest quality, manufactured with Austrian precision and are valued by system integrators and traffic authorities in over 70 countries.

Become a part of our SWARCO team as

# Software and Hardware Test-Engineer (m/f/d)

**Location: Perchtoldsdorf / Lower Austria | full-time (38,5h) | Onsite**

## Your Challenge

- As part of our team, you are responsible for the technical **quality and stability** of our products
- You will actively contribute to the **design of solutions** and optimize internal test processes
- Your activities include **creating software and hardware test plans**, analyzing technical requirements, defining test cases and **developing** and executing automated and manual tests
- You carefully **document** your **test results** in our development environment, which includes Testlink, Visual Studio, GIT, Bitbucket/SourceTree, Jira and Confluence

## Your Profile

- Ideally you have a **degree** from an HTL/FH in the **field of electronics or computer science** with a focus on electronics or a comparable qualification
- **Experience in testing** software applications, basic **knowledge of object-oriented programming (C#)** as well as **test methodology and test tools** (HW and SW) are an advantage
- **Knowledge of communication technologies** (serial, TCP/IP, GSM) is desirable
- You have at least 3 years of experience in testing or development and are willing to continuously develop yourself further
- You have the **ability to work in a team, accuracy and a proactive approach** to new tasks
- You have a **good command of written and spoken English**

## Your Benefit

- At SWARCO, you can expect a great deal of **creative freedom for your ideas** as well as **exciting tasks** in an expanding and highly innovative environment
- You will work together with experienced colleagues from different departments and countries
- As an international company, we offer you a **secure job** and a **wide range of development opportunities**
- Enjoy a **collegial working atmosphere** and a **friendly corporate culture** in an Austrian family business
- Help shape the future of mobility and benefit from excellent **scope for creativity and responsibility**
- Look forward to **modern office and laboratory space, company health promotion and flexible working** hours including the option of **working from home**
- We offer you a **permanent employment contract** and an **attractive work-life balance** with, for example, **discounted lunch, employee events, JobRad, birthday leave, etc.**

The gross annual salary for this position is at least € 45,000.00 and will be agreed individually based on your experience and qualifications.

The future begins today. Yours too?
